Se practica de sute de ani si realizarea lor este chiar traditionala in unele culturi. Tatuajele sunt din ce in ce mai populare, atat in randul femeilor cat si al barbatilor. Specialistii in dermatologie au realizat un studiu care a relevat faptul ca 36% din americanii cu varsta intre 18-29 de ani au sau sunt pe cale sa isi faca un tatuaj. ◆ >>> mai mult </p>
