#000000; font-family: Times New Roman;">Plantele psihogene sau plantele psihotrope sunt
acele plante care produc schimbari in ceea ce priveste modul de gandire, de a percepe lucrurile
din jur sau dispozitia persoanelor care le utilizeaza. </p> <p><span
style="color: #000000; font-family: Times New Roman; font-size: small;"> </p> <p
style="text-align: justify;"><span lang="FR" style="font-size: 16pt; mso-ansi-language:
FR;">Aceleste plante inhiba
emisfera cerebrala stanga unde se gasesc functiile ce tin de rationalitate si activeaza emisfera
cerebrala dreapta a carei functie este intuitia.</p> <p><span style="color:
#000000; font-family: Times New Roman; font-size: small;"> </p> <p style="text-align:
justify;"><span style="color:
#000000; font-family: Times New Roman;">Plantele halucinogene induc efecte fiziologice si
mentale care cuprind in special perturbari ale comportamentului, ale functiilor cognitive si ale
perceptiei, pana la instalarea halucinatiilor, adica la modificarea realitatii.</p>
