

**COMUNICAT DE PRES?**

**Ziua Mondial? de Lupt? ? potriua Hepatitei,** data de **28 iulie 2019**.

Ziua Mondial? de Lupt? ? potriua Hepatitei (ZMH) este un eveniment anual, cu aten?ia mondial? ?dreptat? asupra grupurilor de pacien?i ?i persoanelor care tr?iesc cu hepatit? viral?. Este o oportunitate global? de a sensibiliza ?i de a induce o schimbare real? ? prevenirea bolilor ?i a accesului la testare ?i tratament.

2016, 194 de guverne au adoptat Strategia global? a OMS privind hepatita

viral?, care include obiectivul de a elimina hepatita B ?i C p? ? 2030, dar numai c?eva ??ri sunt pe cale de a ?deplini aceste obiective.

Din cele 325 de milioane de oameni care tr?iesc cu hepatit? viral? la nivel global, mai mult de 290 de milioane (9 din 10!) tr?iesc cu hepatita B sau C, f?r? s? ?tie. F?r? o ?bun?t?ire masiv? ? diagnostic, ratele de tratament vor sc?dea, ratele de infectare vor cre?te ?i vom pierde posibilitatea de a elimina hepatita viral? p? ? 2030.

**Sloganul CAMPANIEI ZMH 2019: ?s? elimin?m hepatita!**

Deoarece scopul de eliminare a hepatitei virale nu poate fi atins f?r? a preveni boala ?i a g?si persoanele nediate diagnosticate ?i f?r? conectarea acestora la ?grijire si tratament, campania de sensibilizare care continu? ?i ? anul 2019, ?i propune s? educe, s?
