cunostinta decizia OMS cu privire la masura de extindere a USPII (Urgenta de Sanatate Publica
de Importanta Internationala) privind pericolul de
raspandire a virusului polio salbatic (WPV) si/sau derivat din vaccin (cVDPV), datorita numarului
in crestere de cazuri cu WPV si cu cVDPV fata de anul anterior. Riscul de transmitere
internationala cu WPV este mai mare decat cel de la declararea USPII privind virusurile polio
din 2014.</p> <p><span style="color: #000000; font-family: Times New
